

# Making Butter!

*(Shake, shake, shake it!)*

Compiled By: Herrin Emeludt Hänsler

## Needed Supplies:

- Whipping Cream
- Salt
- Jar with lid
- Herbs (Optional)

1. Let the whipping cream sit out until it is room temperature, cold cream makes the process longer.
2. Put the cream in a jar, close it, and shake! No stopping... so dance and sign with the kids!
3. Once it separates from the glass in a cream add some salt and herbs if you choose... and shake some more!
4. The firmer you want the butter the more you shake... have fun... dance... sing... and learn to make butter :)
